

iWorkCase®

your on location workstation

iWorkCase

On location workplace for the Apple Macbook Pro

The **iWorkCase** is the first „on location“ workstation from photographers for photographers, as well as, digital operators. The case was designed to carry all required equipment for flexible „on location“ work.

The iWorkCase is available for the present version as well as the previous version of the Apple MacBook Pro. With changeable inlays you can use the iWorkCase with different Macbook Pro versions.

Our custom made coupling system supports the Arca Swiss type quick release system, for quick and easy tripod mounting. With a included ¼ inch screw thread it supports every other quick release system as well!

all information on www.iWorkCase.com

The **HyperMac** external batteries provide the batterie power for your Macbook Pro on location. The new **iWorkCase two** series supports two of the **HyperMac MBP 150 Pro** batteries.
